Railroad Accident.

[From the Richmond Enquirer, July 25.]
The up trais on the South Side road, with troops aboard, ran of the track when some two or three miles beyond Burlesville Tuerday afternoon, wounding forty-five men in all—seventeen severely, four of whom have amoe died. The accident was caused by a spike in one of the rails baving been drawn out, allowing the rail to give vay when the train came upon it. Two cars were thrown down a considerable embankment, and it is wonderful that the extent of damage was not greater than it was. The conductor of the train was also slightly injured. Basilesc considerable damage to the cars, the track was torn up for thirty or forty yards. The wounded were taken to Farmville, where they were properly cared for.

The Exchange of Prisoners Stopped.

[From the Richmond Enquirer, July 23.]

Since the agreement of the commissioners upon the terms of the exchange of prisoners, nearly twelve hundred seconded federal voldiers, taken in the late battles, have been sent to the federal transports in James river. During this charitable and in all respects honorable movement on the part of the Confederate Commissioners, we learn that stile federal army on the James made an advance up the river of about two miles. This intelligence reaching headquarters, has caused a cessation of movements in regard to the exchange, and appropriate arrangements must be made before they are proceeded with.

PRISON GUARDS.

[From the Richmond Dispatch, July 25.]
For several months past, ewing to the demand for men elsewhere, the officers having in charge the different Confederate prisons in this city have been compelled to put up with mere apologies for soldiers in the way of guards. Many of them, it is safe to say, never knew their duty, and took no passe to make themselves acquainted with it. Under such a state of affairs it is no wonder that once the prisoners have escaped a vigilance that did not exist and a sense of duty that was equally buseless. Judging from the conduct of some of the men put on grant at Castle Goodwin and other points of importance, a prisoner has only to dress himself up in the presumed appared an officer or gentleman, assume an authoritative air an officer or gentleman, assume an authoritative air of an officer or gentleman, assume an authoritative a and his exit is assured. It would pay to instruct prison guards as to the nature of their duty. Some are lamentably deficient in the requisite kno-MASONIC CELEBRATION OF THE BATTLE OF MA-

MASONIC CELEBRATION OF THE BATTLE OF MANASSAS.

The first anniversary of the battle of Mauseas was celebrated on the 21st inst., at Dill's farm, at General Whiting's headquarters, by Bee Lodge of Masons. A procession was formed at Dill's and marched thence, preseded by a brass band, to the farm of Mrs. Schermerharm. Arrived there, proceedings were initiated by
prayer by Rev. Dr. Duncan. An oration an eulogy on the
death of the gallant and lamented brother Barnard E.

was then delivered in feeling and appropriate language
by Rev. Dr. Stewart, an Episcopalian clergyman of Alexmadria, Va., who, it will be remembered, was driven

to pray for that individual. The procession returned to

The Central train of cars, arriving on Wednesday evening, brought down, under guard, seven Yankees, septured by a portion of the First Virginia cavalry, under General Stuart, near Beaver Dam depot, a few days since. The prisoners on their arrival were carried to the office of the Provost Marshal, and thence to the C. Saprison, corner of Cary and Twentieth streets. The squad consisted of one Lieutenant, two Orderly Sergeants, one Corporal and three privates, belonging to the Fifth Indiana cavalry.

At this rate our shipments of specie will not last very long, and exchange will naturally decline.

Money is very abundant at 4 a 5 per cent on sall. Paper sells at 4% a 5 a 6 for the best names. Certificates of indebtedness hang at 981/4. Demand notes range from 106 to 1061/2. The moment they sell for the same price as 7.30 notes, or nearly so, it is presumed that the Secretary will authorize an exchange. The public have again begun to deposit money at the Sub-Treasury at 4 per cent. To-day something under \$100,000 was received.

The course of gold and exchange appears to tend downward. Gold opened this morning at 116%, fell to 116 between the boards, sold at 115% at the second board, and closed that bid. Exchange has fluctuated all day at 127 a 128. There were some large sales of bankers' bills at 127. It is not easy to perceive how gold and ex-

change can be maintained at their present prices. The stock market continues very inactive, without important change in prices. Speculators are all waiting for news. At the morning board government sixes (coupons) declined 3/6, Tennessees 1/4. Missouris 14. Michigan Central 14. Rock Island 14. Pacific Mail 1%, New York Central 1/4, Erie 1/4, Erie preferred 134, Galena 14. The feature of the market is inactivity-a general disposition to avoid doing business. This state of things is of course would lead to a renewal of activity, which the

present condition of the money market is particularly calculated to promote. Between the boards the market was dull. At the second board prices were a fraction better; but business was very dull indeed. Strange rumors are afloat with regard to obstacles which are said to be thrown in the way of trade with New Orleans by United States officials in authority at that port. It is commonly stated among merchants that it is impossible to obtain a clearance of a cargo of sugar or cotton without paying a douceur to some one. It is likewise stated that, all the tugs being in the hands of the government officials, sailing ships cannot get up to the city from the Passes without purchasing from some one the right to hire a tug at an enormous figure. These stories are probably unfounded or much exaggerated; but as they are current and generally credited we have thought it right to mention them, in order that the officials at New Orleans may be aware of what is said of them here, and likewise that the Secretary of the Treasury may institute any inquiry which may be proper on the subject. Rumor makes very free with names in connection with these alleged irregulari-

Corn fed, per lb. 43%c. a 5c. Still fed 43%c. a 43%c. a 43%c. With a large falling off in the receipts, there was but fair supply on sale to-day, notwithstanding the fact that some three or four hundred cattle were offered which were on sale last week, but which could not be sold in The cattle were of a fair average quality, and as the sup-ply was moderate, with no expected arrivals to depress the market, trade was steady, though not nearly so ac-tive as some of the more sanguine of the speculators and regular dealers anticipated. The speculators who pro-ceeded to Albany to obtain accessions to their limited numbers, which offered on Monday morning, were generally in expectation of a material advance in prices; but the timely arrival of the cattle, which came in on Monday afternoon, and the three or four hundred State cattle, provented any rise in the rates. There was a general belief that there was a slight improvement in prices on Monday, particularly in the better kinds, which sold readily at our outside quotations above. The range to-day was from 6c. te 8½0. a 8½0. per pound, but the bulk of the offerings sold at about 7½c. a 8c. The butchers having generally supplied themselves liberally last week, were indifferent about purchasing; otherwise there would probably have been an advance.

MILCH COWS.

The changes are so few and unimportant in this department nowadays that we have only to make the stereotyped remark that the market is substantially the samebeing very quiet. The saies are effected at prices quoted above; but the bulk of the offerings go at from \$25 to \$35

WEALS.

The market still "drags its slow length along" without any visible change for the better or worse. The demand for all descriptions continues very moderate and the current rates for the various kinds are represented in the above quotations, which are corrected from the sales of the day as the different yards.

SHEEF AND LAMBS.

The market for prime continues to rule buoyant, under a tolerably active demand, and holders have been enabled to obtain remunerative prices. Prime sheep are quite active and prices rule pretty high, several large lots having sold at our outside quotations for first class. All other kinds were dull, with pretty slow sales at the above prices, which are somewhat lower. The sales at Chamberlin's, as below, afford a pretty good insight into the market at all the yards.
